

THE FAST TRACK TO HIGH SPEED AUTOMATIC TWO NEEDLE COVERSTITCH HEMMING !!!

Atlanta Attachment Company's High Speed Automatic Two Needle
Coverstitch Hemming

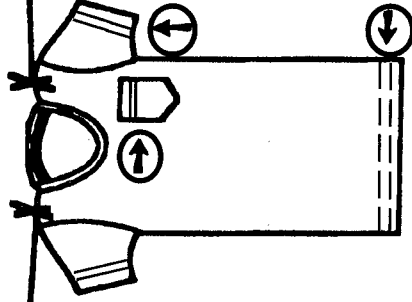

Workstation is available for sleeves and pockets or as a combination unit for sleeves, pockets and bodies complete with stacking capability for all. A high speed fold in half stacker for sleeves is also available.

Our simple to maintain and operator friendly design assures that your company can quickly be on the fast track to consistently higher quality and higher production.

Model AAC113

Choose our basic Model AAC111 pocket/sleeve hemmer, add our picker stacker, fold in half stacker, return conveyor, or any combination. For more versatility, choose our Model AAC113 (shown) for sleeves/pockets/bodies complete with combination picker stacker, add our fold in half stacker with return conveyor. Our Modular design allows you the flexibility to pick and combine components, giving you a custom system that best meets your requirements without paying a custom price.
